Duluth, Minnesota (May 21, 2018) – SOS Leak Repair Inc. a leading provider of the cutting-edge solution to pipe leaks announced that it has received the governor’s safety award. The award was presented to SOS Leak Repair Inc. by Minnesota Safety Council and North Dakota Safety Council.

SOS Leak Repair has continually demarked itself by the quality of its solutions. First Launched in 1975 by Jim Carter and his father. SOS plays a key role in the Ethanol Industry by solving industrial pipe repair problems, preventing plant shutdowns, increasing plant efficiency, and eliminating workplace hazards.

PRODUCT SERVICE OR ACTIVITY/BUSINESS UNIT FOR WHICH AWARD WAS GIVEN

These awards have been given because SOS Leak Repair is recognized for excellence in workplace safety and health. “We are honored to win the Governor’s Safety Award and to be recognized among the best of the best with Award of Honor.” Said SOS President Jim Carter. “For over thirty years we have travelled the country helping our industrial clients repair leaks without losing down time at their plants and with their equipment. Safety has always been paramount for SOS. We are please to say that we never had a lost-time incident on a job.”

ABOUT THE COMPANY
